

Low Moor C. of E. Primary School

Aiming for Excellence

4th January 2018

Dear Parents and Carers,

YEAR 4 - SCIENCE

This half term, in our Science lessons, we will be studying the digestive system and the function of the relevant organs.

To assist with this learning, we would like to create a visual representation of the digestive system and therefore request that you send your child to school with a plain white t-shirt by **Monday 15th January 2018**. This will enable pupils to illustrate the various organs using fabric pens.

If you have any questions, please see your child's class teacher.

Thank you for your support.

Yours sincerely,

Mr Robinson and Miss Strachan
Year 4 Class Teachers
